SAVE LINCOLN UNIVERSITY

It is charged that Governor Sam A. Baker is behind a movement to oast President N. B. Young as bend of Lincoln University. To do this cannot but seen a backward step for Negrov education in the state. This, of course, the governor knows full well. It is gur opinion that the governor does not want to see the Negro youth of the state have an a accredited institution of learning at the expense of the state, hence, he is not only opposed to N. B. Young, but the is optiosed to any man-heading Lincoln whom he thinks will make an honest attempt to build, and put that institution on an accredited basis.

Governor Baker has intimated that the Negroes of the state do not want the kind of school that President Young is attempting to give them. We should like to know where he got the information. The law creating the university certainly condemplated a change from an 'institute' to a university.

In securing Mr. Young's services, the Board of Curators told him that they wanted a man qualified to give the Negroe citisens of the state a first-class college, or an institution where they youth of the race could go and get institution in the higher branches of arts and sciences. This, we believe. Mr. Young set out to do with all sincerity of heart and purpose. He made a study of the situation, and has find the plans. He can, of course, go only as fastase the state rays go, heing dependent upon the state for the means to carry on the work.

There is no charge of theory the other than the higher the heart of the race of high, he is ten years shead of the program, he is trying to do too much.

One of the great bindrances and back-sets that starred St. Louis in the face has been the growing tendency on the part of the passing administration to southernize the city. Millions of deliars have been spent promoting race prejudice. The only retigns that cauch exponditures have been spent permitted the city, thave been stagnation in growth, and littleness of spirit.

Mayaw Miller says he has a few islon of "a city beautiful" for fact the St. The opportunity to reaffee his vision is within an exact. He saws he will give every main a square deal. The carries are in his hand, and it is his deal. All that is needed now, is the courage. This we keep the has.

Madame Mamie Hightower BENEFACTRESS SUPREMACY Beauty Preparations From the very beginning of my business years and years ago, I studied the needs of our group. As a hair dresser and beauty expert I caw the lack of quality in the various toilet preparations then available. I devoted my life to the work of discovering new processes and better materials. Friends now say "Madam, you are known all over tho world," and I say to them, "Come and look at my picture gallery." Then I show them hundreds of pictures of society women, debutantes, actors, actresses, famous singers, who use Golden Brown, and call their attention to the fact that we are now assuming our rightful place in the world. We are taking more pride in our personal appearance. Personal appearance means success. Fine clothes and flashing jowels are naught compared with a flawless complexion and soft wavy hair. My pride is in the progress of the race - and the success of Golden Brown. GOLDEN BROWN IS SUPREME. My preparations are the equal of the finest made in France. With them you can bring out the latent beauty of your skin and your hair. With My Golden Brown Beauty Prebarations are the most exclusive, them you can attain success and thereby accelerate the progress of our race. high-grade, aristocratic toilette creations deluxe made for our No matter where you live you can get Golden Brown - druggists all over the world are now race or any other Golden Brown Beauty Ontment. 25 cents
